Temple of Isis Ritual III: Collapsing the Timeline

Creating a new agreement with our relationship to Time. Time is an illusion that the collective has agreed upon, yet once we move into a higher octave of consciousness we can move beyond the constructs of time and space, Quantum Leaping our dreams into existence. In this Temple of Isis Ritual Practice we understand Time in a new way, collapsing the 'known' timeline and bringing a pure and elevated version of ourselves into manifest form. In this ceremony, we evoke the goddess Lakshmi and ask her to guide us through a journey of shifting us into deeper abundance consciousness. All of our dreams are possible, the only thing holding us back is ourselves and the beliefs we hold. In this ritual, we will make a new agreement with Time and reclaim our abundant nature and our divinity.

HOW TO PREPARE

GUIDE PREPARATIONS:

- temple space
- speaker & downloaded playlist
- 12 candles prepared in a dodecagon shape in the center of the temple
- altar & temple items (candles, flowers, divine energies)
- an object that symbolizes 'time' on the altar (ex: hourglass, watch, angel card of the timekeeper etc)
- incense for smudging (palo santo, sage, copal etc)

PARTICIPANT PREPARATIONS:

Prior to our ceremony, take time to inquire who you are becoming, what would you and your life look like if you were truly living your highest and fullest potential? This is a key part of the preparation for this ceremony as we will be taking a quantum leap and stepping into this version of ourselves in this ceremony- we are working with TIME and mending our concept around it to 'time travel' into our highest and most aligned SELF so we can continue to be in fullest service to Ourselves, Mother Earth, our Communities, and the Awakening Process of Humanity. Once you hold the vision of YOU in fullest power and embodiment, ask yourself what props, outfit, instrument, setting or tools you may need to fully FEEL your future self in the present moment (this is a key ingredient of the magic we are doing- so whatever it is that will help you truly feel and believe that you already ARE your future self, please bring it and have it prepared for our ceremony).

- wear clothing and bring whatever props you need to embody your future self
- notebook and pen

RITUAL ROLES:

- Guiding Priestess
- Curandera
 - Smudge people upon arrival or during the initial words and dropping in
- Temple Keeper
 - duties: responsible to prepare the temple with the sacred geometry: 12 pointed dodecagon in the center of the room with either candles or crystals

THE RITUAL

1. Purification as one enters the sacred space: smudging (curandera)

2. Guide everyone to sit together in a circle

3. Welcome

- Welcome participants
- Bring participants into presence by having everyone close their eyes and take a few long deep breaths; optional OM. At this moment repeat 'the prayer to the divine mother' internally to yourself:

*'let me be a sacred vessel.
fill me with divine love.
only from there, I'll share your prayer.
fill me with your love.'*

4. Introduction to the mystery school of the rose & the remembrance of the Temple of Isis ritual practices:

- Mystery school of the rose is a school for priestesses who remember their place in the temple. It is a mystery school of ancient ritual practices from the Temple of Isis evoking the divine feminine energy, remembrance & leadership to usher in the New Earth.
- Formula: remembrance→sovereignty→empowerment→creative expression→leadership
- *Temple of Isis ritual | collapsing the timeline: creating a new agreement with our relationship to Time. Time is an illusion that the collective has agreed upon, yet once we move into a higher octave of consciousness we can move beyond the constructs of time and space, Quantum Leaping our dreams into existence. In this Temple of Isis Ritual Practice we understand Time in a new way, collapsing the 'known' timeline and bringing a pure and elevated version of ourselves into manifest form. All of our dreams are possible, the only thing holding us back is ourselves and the beliefs we hold. In this ritual, we will make a new agreement with Time and reclaim our abundant nature and our divinity.*
- Briefing of how the ritual will unfold and flow (one at a time we will hold space for one another to take the floor and embody their 'higher self'. Encourage that everyone shows up as authentically as possible, releasing any fear of being judged by their peers. Encourage that they embody their 'future/ higher' self to the point that they feel the emotions of being their idolized future self.
- Continue by explaining how the ritual will proceed: Before the person in the spotlight begins, the rest will form a circle, bring their foreheads together and silently chant 'sat nam' the mantra of truth. Continue until the spotlighted person is ready and states that they are ready at which point everyone will open the circle, create a half circle and give their full attention to them. The spotlighted person will begin by reading 'the prayer to time' and continue with their performance. Once they are finished the rest hold their hands up towards their sister (palms facing forward) and together chant 'AWEN' seven times and then all will bow to their sister in reverence and honour. Then the next person will go.
- Review of temple etiquette:
 - Nobel silence
 - Respect
 - Presence

- Constant attention on the intention

5. Sharing

- Open the space to allow each woman, one at a time to share their intention and prayer (emphasize precision in their share; one sentence)

6. Dance of Receptivity

- Guide everyone to stand and to start moving, explaining that it is essential that we move our bodies to create the receptivity of change throughout the whole body (5-7 minutes)

7. Prayer

- Call in your angels, guides, ancestors and the four directions to protect the space
- Connect with gatekeeper Lakshmi to be present, protect and guide the ceremony

8. Collapsing the Timeline

- Invite the first person to take the stage (use your intuition to select the order of who goes first). Remind them that they are safe and to fully embody their 'higher self' in this moment. While the first person gets ready, guide the rest of the sisters to form a circle, bringing foreheads together (third eye to third eye) and chanting 'sat nam' silently (the mantra of truth).
- When she is ready, she will let the rest know and you as guide, will instruct others to open the circle, forming a semi circle around her. She begins by saying the prayer to time (see your notes). She performs her alchemical performance (3-7 minutes depending on how many people are there).
- When she has completed her embodiment performance, the rest hold their hands up towards their sister (palms facing forward) and together chant the spell of completion: 'AWEN' seven times and then all will bow to their sister in reverence and honour. Intuitively feel this moment and when it feels complete invite the next women to take the stage.
- REPEAT until all women have gone

9. Closing Circle

- Have everyone sit down again; drop into presence and proceed with the closing words:
- Prayer: thank your guides, angels, ancestors and the four directions for protecting the space and the ritual. Thank Lakshmi the gatekeeper for being present, protecting, and guiding
 - restate the intention of the ritual and remind everyone that they now embody a new frequency. Encourage everyone to observe the shifts that begin to happen in their lives and to trust the process; it may seem disorienting at times as '3D self' catches up with the shift that just took place.
 - Thank each person for their participation, presence and courage and congratulate each person for this powerful initiation
- Collective OM and declare with this final sacred sound, OM you are closing the portal.
- Hold sacred silence and open space for sharing (remember, request concise and brief sharing)
- Thank everyone for coming, for sharing and if there is anything you feel is important to impart with the group before dispersing you may share.

*I often like to celebrate the ritual with a collective potluck; the energy has been held very intensely throughout the ritual, so an activity that is LIGHT and FUN afterwards is a good idea. It is also a great moment for people to connect more intimately with others, share their experience and integrate the experience.
